

Educating Immigrant Families through a 2Gen Approach

We provide integrated 2Gen education opportunities for families to advance their social and economic mobility.

OUR NORTH STAR VISION

We aim for our graduates to be thriving members of their communities who succeed in school, provide for their families, and improve the world around them.

PROBLEM STATEMENT

Immigrant families often lack access to linguistically- and culturally-affirming resources and educational opportunities they need to meet their goals and shift towards greater educational, social, and economic outcomes.

SOLUTION & VALUE PROPOSITION

Our holistic, family-focused programming includes multilingual, culturally responsive early learning, adult education, and family integration activities, undergirded by comprehensive wraparound support.

SUCCESS LOOKS LIKE

Briya's success is intricately linked to the educational and economic success of the families we serve and their satisfaction with our programming.

Children graduate from pre-kindergarten ready to excel in elementary school.

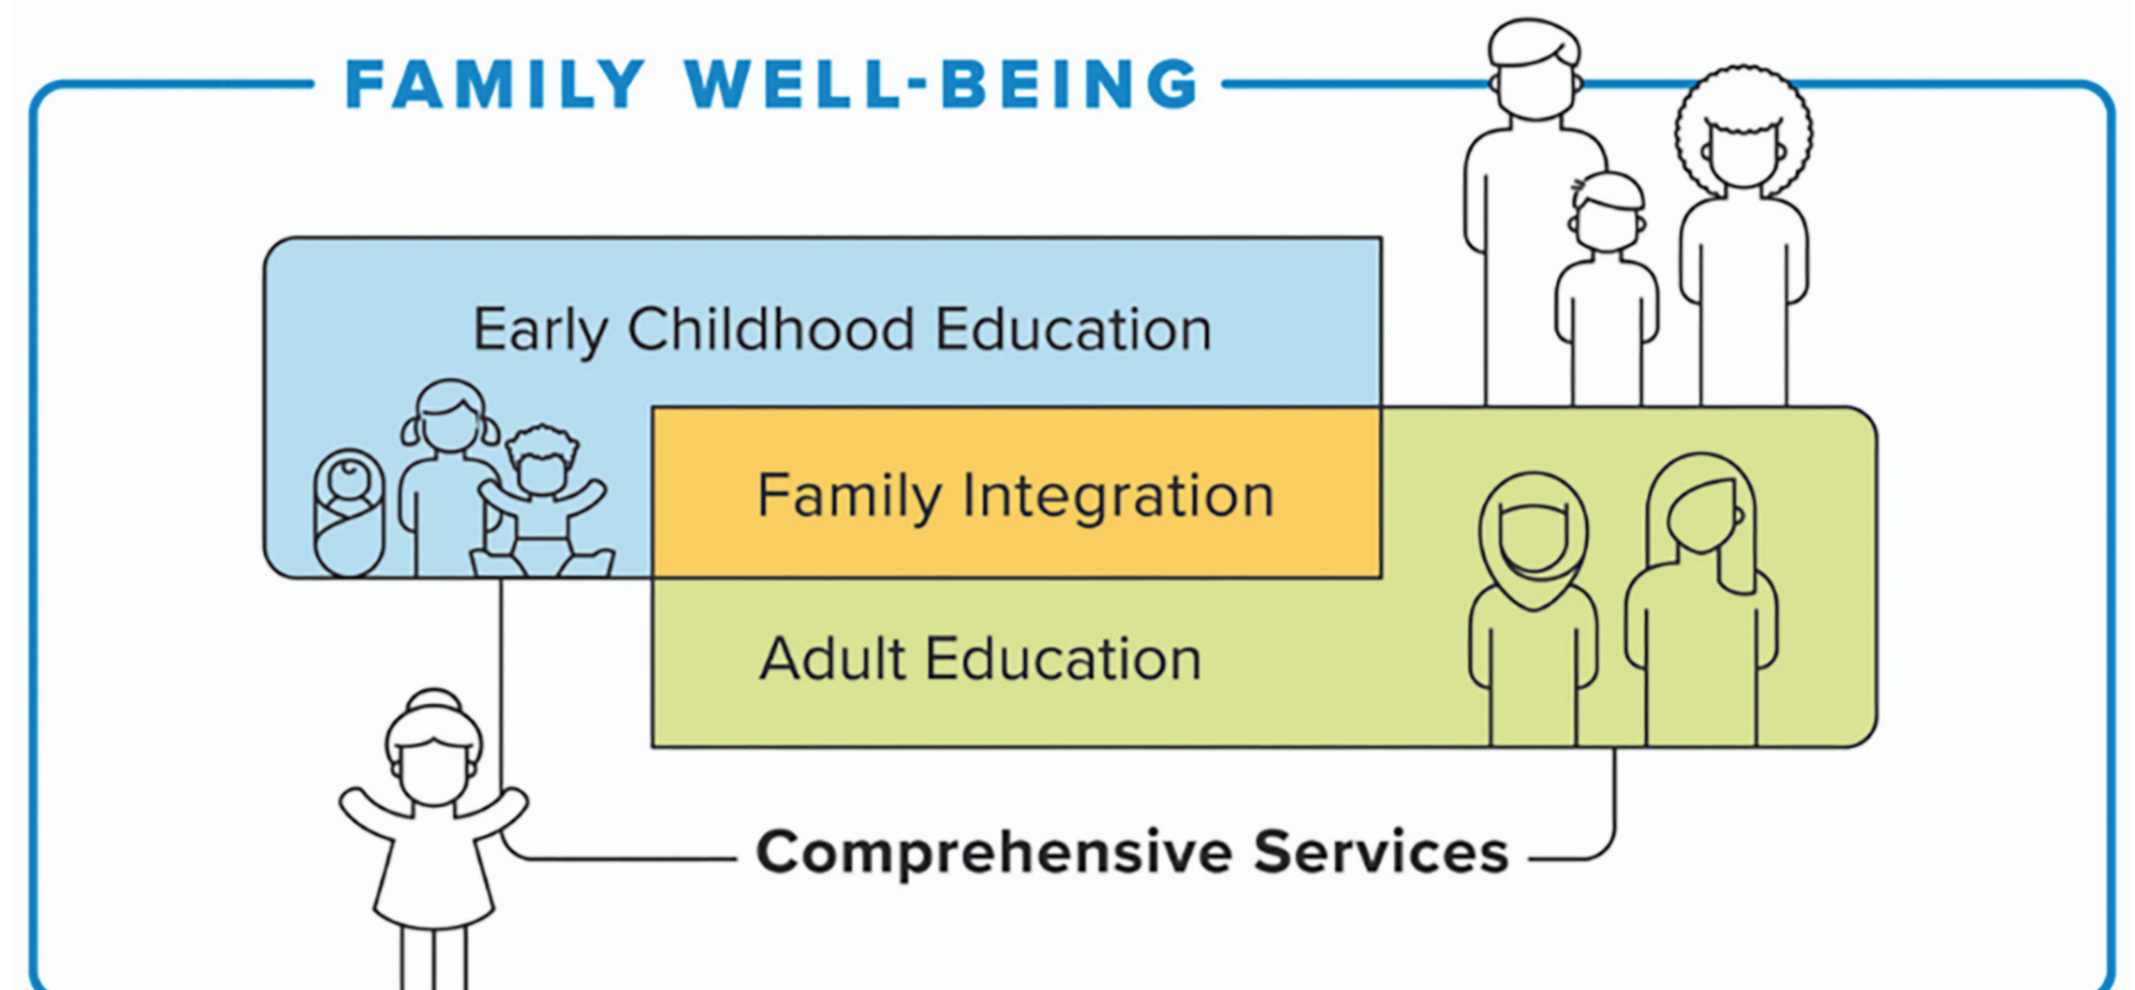

Parents continue their education and/or are employed in high demand fields.

Families work together to advocate for their individual and collective needs.
